League Playoff Rules

Playoff Schedule:

- Playoffs Start Dates: August 13th and August 14th.
- Final Day of Play: August 27th and August 28th

Playoffs Format:

1. Flight Division:

- The league will be divided into different flights based on the players' handicaps or skill levels.
- Each flight will consist of a certain number of players (to be determined by the number of league players)

2. Progression:

- Two weeks prior to the league end date, the playoffs will commence on August 13th and August 14th.
- After each week of playoffs, the flights will be cut in half based on performance. Only a certain number of players advance to the next round, but all are encouraged to keep playing till the league end date.
- The playoffs will continue for the next week(s) following the same format of cutting flights in half based on performance.

3. Scoring:

- Players' scores for each playoff round will be calculated by subtracting their handicap from their actual score for the round. This adjusted score will determine your flight and standings in the playoffs.

4. Championship Round:

- The final day of play will be designated as the championship round.
- Players who have advanced through the playoff rounds will compete in the championship round to determine the overall winners in each flight.

Overall, this format allows for competitive playoff rounds leading to a cumulating championship round where players will vie for the league championship in their respective flights.
